Forgiveness as Resurrection

*A Ronning Centre Consultation
with John and Eloise Bergen*

The year is 2008. Late one evening in rural Kenya, a band of men break into a farm and brutally assault and rob the couple living there. The couple had recently arrived from Canada for missionary work among orphans. Near the point of death, they struggle to find medical treatment in the dark of night. Their healing is miraculous, but the greater story is their spiritual journey to healing through the power of forgiveness. John and Eloise Bergen have a remarkable story and they will share with us the shock and suffering they experienced, as well as the joy and hope they found in two Ronning Centre events.
