Edmonton

Fall Theme: Is Everything Up for Sale?

We will be loosely following the topics brought up in Michael Sandel's book *What Money Can't Buy*, which means we will be exploring the things that are often put up for sale but where this seems to many a mistaken, or even morally wrong, way to go. The discussion will examine what are the proper limits of a market approach to the distribution of goods and services. Copies of Sandel's book will be available for \$20 at the café if you would like to purchase one.
